SUMMARY

Aspiring IT professional with experience in web development, a growing foundation in cybersecurity, and a passion for gaming. Skilled in problem-solving, debugging, and developing web applications, with knowledge of security fundamentals and a commitment to continuous learning. Adaptable, detail-oriented, and eager to contribute to cybersecurity, software development, or game quality assurance while delivering reliable and high-quality user experiences.

EXPERIENCE

Software Developer Intern Feb 2026 – June 2026
Inspire Holdings Inc. — Taguig City, Metro Manila

- Engineered a comprehensive web-based pawnshop management system to optimize branch operations.
- Implemented backend APIs and integrated databases to ensure seamless transaction processing.
- Enhanced system features through collaborative development, focusing on business logic and operational efficiency.
- Contributed to ongoing system improvements by performing thorough testing and debugging.

Service Crew June 2023 – Dec 2023
McDonald's 32 St. — Taguig City, Metro Manila

- Provided excellent customer service by taking orders accurately and efficiently.
- Assembled and presented food and beverages according to brand standards.
- Maintained cleanliness and organization in the dining and lobby areas to enhance customer satisfaction.

SKILLS
