Taguig City, Metro Manila

Computer Science graduate with hands-on experience in software development, building web applications, developing backend APIs, database integration, and maintaining business management systems. Skilled in JavaScript, TypeScript, Python, Java, and modern web technologies, with experience in debugging, system improvements, and software deployment. Adaptable, detail-oriented, and capable of working independently or collaboratively to deliver reliable software solutions.

Experience

Software Developer - Inspire Next Global Inc. Jun 2026 - Sept 2026

- Built real-time alerts, QR-code transaction scanning, printable PDF reports, inventory expiration notifications, and supported the backend migration to Prisma.

Software Developer Intern - Inspire Holdings Inc. Feb 2026 - Jun 2026

- Developed product browsing and checkout UI, inventory management tools, web-builder components with drag-and-drop and themes, and fixed UI/build issues to improve stability.

Projects

QuickPawn PMS: SaaS

- Multi-tenant Saas pawnshop management platform with responsive dashboards, RESTAPIs, database models, secure multibranch access control, and scalable business workflows.

QuickPawn PMS Admin Portal

- Multitenant Saas administration portal with automated tenant provisioning, subscription and billing management, role-based access control, and transactional email notifications.

Inspire Cinema: Ticketing System

- Ticketing platform with responsive landing, seat selection, checkout, frontend payment flow, and backend booking and payment logic.

Mercato: E-Commerce Content Management System

- Visual ecommerce website builder with Figma-style drag-anddrop editing, reusable sections, product binding, dynamic product components, configurable themes, and canvas interactions.

ServiceWho: Service Marketplace Platform

- Service marketplace connecting customers with service providers through role-based authentication, service browsing, booking management, and secure database architecture.

MediChain: AI-Driven Diagnosis and Prescription System for Common Illnesses

- Thesis project for diagnosis, prescription, and appointment management with account verification, video-call integration, database migrations, and CI/CD

Education

Bachelor of Science in Computer Science - Taguig City University 2020 - 2026

Certifications

Python Core - Sololearn 2022
Introduction to Cybersecurity- Cisco 2026
Build a free website with Wordpress - Coursera 2026

Skills

JavaScript, TypeScript, Python, Java, React, Next.js, Node.js, NestJS, Tailwind CSS, PostgreSQL, Prisma, Supabase, Firebase, Docker, Git/GitHub, Figma, Android Studio, HTML/CSS.
