SUMMARY

Computer Science graduate with practical experience in software development, web application development, database management, and system implementation through internship and academic projects. Skilled in collaborating with teams, analyzing requirements, and developing technology-driven solutions. Eager to contribute technical expertise, problem-solving skills, and a strong work ethic to an organization while growing as an IT.

WORK EXPERIENCE

Software Developer Intern - Inspire Holdings Inc. **Feb 2026 - June 2026**

- Developed and maintained a web-based pawnshop management system that supports branch operations, customer records, pawn transactions, payments, renewals, redemptions, and financial monitoring. Worked on backend APIs, database integration, business logic, and system features to improve transaction accuracy and operational efficiency.

Service Crew - Mcdonald's 32nd St. BGC - GADC **June 2023 - Dec 2023**

- Trained and stationed in customer/dining area, lobby, and cashier; responsible for taking orders, assembling, and presenting food and beverages.

EDUCATION

Bachelor of Science in Computer Science **2022 - 2026**
Taguig City University
- Final CGPA: 1.65

Senior HIgshchool - TechVoc: Computer Programming **2020 - 2022**
Western Bicutan National HIghschoool
- Final Grade: 94

ACADEMIC PROJECTS

MediChain: AI-Driven Diagnosis and Prescription System for Common Illnesses with Blockchain Integrated Health Records Using AES and SHA-256 Encryption **2025**

- Contributed as one of the main programmers in the development and enhancement of system features.
- Participated in implementing CI/CD automation to support continuous integration and deployment.
- Assisted in manual and basic automation testing to ensure system functionality and reliability.
- Collaborated with team members in debugging, issue verification, and system improvements.
- Supported overall system stability through development, testing, and documentation efforts.

LANGUAGE

- Python, TypeScript, JavaScript, HTML/CSS

FRAMEWORKS

- Next JS, FastAPI, Flask

TOOLS

- Github, Git, VS Code, Figma, Supabase, Firebase
